Objective:

Computer Science graduate with a strong foundation in software development, OOP principles, and web technologies. Practical experience building software applications and database systems using Java, Python, React.js, and MySQL through an internship and technical projects. Seeking an entry-level Software Developer role to apply core programming fundamentals and build scalable, real-world applications.

Education:

Bachelor of Engineering in Computer Science and Engineering | Dr. Mahalingam College of Engineering and Technology
2022-2026 | **9.0**

HSC | SRV Boys Higher Secondary School, Namakkal
2022 | **94.1**

SSLC | SRV Boys Higher Secondary School, Namakkal
2020 | **91.4**

Skills:

Technical Skills:

- **Programming Languages:** C, Python, Java, HTML, CSS, JS, React.js
- **Tools & Technologies:** GitHub, Git
- **Database Management:** MySQL

Soft Skills:

- Problem-Solving
- Analytical Thinking.
- Adaptability
- Leadership

Projects:

Automated Timetable Generation

January 2024 – June 2024

- Developed an automated timetable generator in Python, streamlining schedule creation for schools.
- Designed algorithms to handle constraints such as teacher availability, class durations, and room assignments. Developed a user-friendly interface for displaying timetables.

Student Management System

June 2024- December 2024

- Developed management System for student registration, profiles, and course enrollments. It tracks academic performance by storing grades and subjects.
- The system also monitors attendance and generates reports for easy analysis. This streamlines the management of student records and academic data.

Real-Time Bus Tracking and Seat Availability Management System

January 2025 – June 2025

- Developed a Real-Time Bus Tracking and Seat Availability Management System using a location API to track and display the real-time location of buses along their routes.
- Implemented conductor-based seat status management, allowing conductors to update seat availability in real time and enabling passengers to view the latest available and occupied seats.

Internships:

Nandha Infotech - Coimbatore

June 2024 – July 2024

- Developed secure login and registration pages using MySQL, enhancing system security and protecting user data.
- Implemented CRUD operations using MySQL, improving data management efficiency.
- Collaborated with engineers to enhance system modules, leading to improved performance and functionality.

Certifications:

- The Joy of computing using python (NPTEL), Social Networks (NPTEL).
- 24hrs Hackathon at Kumaraswamy College.
- 8hrs Hackathon at PPG Institute.
- LinguaSkill Certificate (B1).

Extracurricular Activities:

- Member of National Service Scheme (NSS).
